**Don't forget**

The shooting control at this tournament made use of the **Damage timing system**.

The system is versatile and can be adapted to any shoot of any size.

You can have a single time display or multiple displays and the system can also incorporate the use of one or more **ABCD** display boards within the system.

Cables come in a number of lengths with connectors available to adapt the system to your own requirements

If you are interested in purchasing a **Damage timing system**, Graham Harris at Clickers (01603 300490) will be happy to advise and to discuss your requirements.
